

ENVOYS LEAVE  
NIAGARA FALLSMediators End Six Weeks of  
Incessant Parleying.

ARE WAITING ON CARRANZA

When and where the next conference will be held depends on the Rebel Commander, who is now consulting his subordinate chiefs regarding sending delegates.

Niagara Falls, Ont., July 3.—With the departure of Ambassador Da Gama of Brazil, Minister Naon of Argentina and the American delegation consisting of Justice Lamar, Frederick W. Lehmann and H. Percival Dodge, diplomatic secretary, the Pan-American mediation conference, convened to find a solution of the Mexican problem, formally ended its sessions here.

When and where the next meeting will be held depends upon General Carranza, the Constitutionalist chief, who is now consulting his subordinate chiefs about sending delegates to a conference with the Huerta delegates for a selection of a new provisional president. In the meantime mediation has been declared in indefinite recess.

Formal notification of the invitation to Carranza to send delegates and his reply was conveyed by the mediators to the American and Huerta commissioners. The note sets forth that there is no further need of sessions until the Constitutionalist delegates are appointed. The note declares the international conflict settled and remarks: "All that is left to be done is to establish and organize a provisional government in Mexico, a patriotic work reserved exclusively to the two Mexican delegations."

With a few handshakes and good-bys the exchange of cards and the oft repeated remark, "we'll be together soon," mediators and delegates separated after six weeks of incessant parleying.

## SAYS PEACE IS ASSURED

Mexican Foreign Minister Announces  
Action of Mediators.

Mexico City, July 3.—"Peace between Mexico and the United States was definitely arranged in a protocol signed by the Mexican delegates at Niagara Falls. It is impossible to give the details until the Mexican senate has acted on the protocol."

This statement was given out by Acting Foreign Minister Esteve Ruiz, who added that the dignity and sovereignty of Mexico had been saved.

## SITS IN PUBLIC GALLERY

J. P. Morgan Is Not Recognized in  
the Senate.

Washington, July 3.—After J. P. Morgan had conferred with the president he visited the congressional library and then went to the senate side of the Capitol, where he inquired the way to the senators' gallery.

"Got a card to get in here?" demanded the doorkeeper, when Mr. Morgan tried to pass.

"No, I haven't," returned the financier. "But I am acquainted with Senator Root."

"Can't help that," returned the guardian of the door, tartly. "Go around to that other gallery, where they let anybody in without a card."

Mr. Morgan smiled and going about to the general gallery, took a seat where he could hear the senate's proceedings. No one about him recognized the financier and he apparently was unrecognized from the floor.

## AMERICANS MAY WIN CUP

English Crews Are Eliminated in  
Rowing Event.

Henley, Eng., July 3.—The Grand Challenge cup, the blue ribbon prize of English rowing, will go abroad this year for the fifth time in nine years. America probably will be its resting place for the ensuing year, after which it must be returned to the stewards of the Henley regatta to be competed for again.

In the first series of heats for the Grand Challenge cup the English crews were eliminated. The Harvard second eight disposed of Leander; the Union Boat club eight of Boston defeated the London Rowing club; Winnipeg had an easy victory over the Thames Rowing club and the German crew of Mayence won from Jesus college, Cambridge, in the fastest time of the day.

## TRAIN STRIKES AUTOMOBILE

Two Persons Killed and Four Severely  
Injured.

Danville, Ill., July 3.—Two persons were killed and four severely injured when a northbound Chicago and Eastern Illinois train struck an automobile at Hooptown, owned by Ben Williams of Bismarck, and containing five others.

The victims were D. L. Ogden, a banker of Bismarck, and Mrs. Emily Standish, his mother-in-law.

## DEBATE IN HOUSE OF LORDS

Duke of Abercorn, Marquis of Londonderry, Marquis of Salisbury and Earl of Halsbury Agree Pending Home Rule Bill Is Only Loophole for Avoiding an Awful Calamity.

London, July 3.—Debate in the house of lords on the bill to amend the Irish home rule bill was characterized by general recognition on the part of the Unionist peers that some means of settlement must be found and that the amending bill offered the only solution.

The Duke of Abercorn, speaking as an Ulster volunteer, said he looked upon the bill as the only loophole he could see for the avoidance of a most awful calamity.

The Marquis of Londonderry, chairman of the Ulster Unionist council, said the bill was a horrible one, but he would support it in order to avoid civil war.

The Marquis of Salisbury announced he would support the amending bill for the same reason, much as he disliked it.

He expressed the hope that Lord Willoughby de Broke could be induced in the interests of a settlement to drop his amendment for the rejection of the bill.

The Earl of Halsbury, once the most irreconcilable of the "die hards," hoped so, too, for nothing could be more urgent, he said, than the necessity of making some sacrifices in order to avert civil war.

## LABOR AND CAPITAL AGREE

Peace Arranged Between Paper Company  
and Employes.

New York, July 3.—After a five months' dispute representatives of the International Paper company, which employs between 8,000 and 9,000 men in thirty or more plants located in a score of cities in the United States and Canada, and the committee representing the employes' unions, arrived at an amicable adjustment of their differences. The conferees signed a new agreement for one year only.

Hugh Frayne, general organizer of the American Federation of Labor, asserted that the workers had obtained several important concessions, the most notable of which are a number of increased pay clauses and a method of adjusting grievances.

A clause in the agreement makes it mandatory on the employers and the workers to settle by arbitration any dispute that may arise while the agreement is in force.

## WOODMEN DECISION UPHELD

Higher Court Affirms Restraining  
Order Against New Bylaws.

Springfield, Ill., July 3.—The judgment of Judge Creighton of the Sangamon county circuit court, in which he held that the bylaws increasing the rates of insurance of the Modern Woodmen of America were not adopted legally and restraining the head officers of the camp from putting the rates into effect, was affirmed by the appellate court.

The court held that the bylaws adopted did not receive the necessary vote of the delegates.

## DEPUTY KILLS DESPERADO

Wounds Another Train Robber in  
Battle in Chair Car.

Pendleton, Ore., July 3.—George MacDuffey, a deputy sheriff of Heppner, Ore., fought a single handed battle with train robbers in the aisle of a chair car fifty miles east of here, killing one, wounding another and missing death himself when a pocket bomb in the upper left hand vest pocket slowed down a bullet aimed at his heart.

The car was on a westbound Oregon-Washington Railroad and Navigation passenger train.

The dead man was identified as George Chapman. His wounded companion and a third robber were trailed by posses.

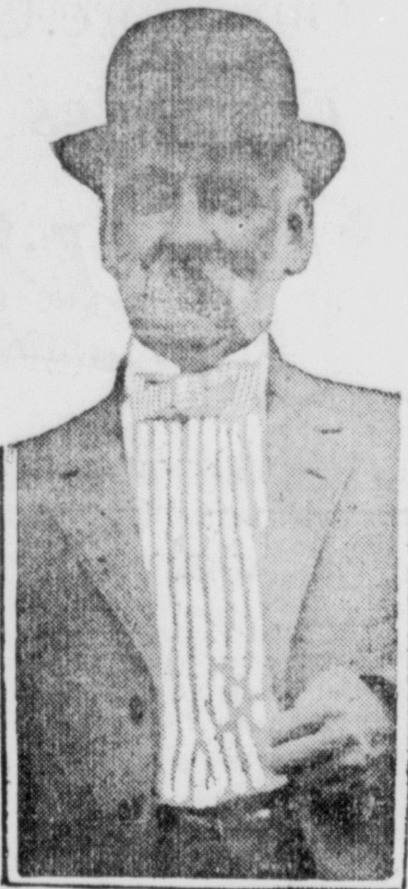

They got about \$200 from the express car, one diamond ring valued at \$700 and a few dollars.

## WILSON WOULD AID SALEM

President Will Ask Congress to Ap-  
propriate \$200,000.

Washington, July 3.—President Wilson will send a message to congress recommending that the government appropriate \$200,000 for the relief of the Salem fire sufferers. The president decided to act after receipt of an appeal from Governor Walsh of Massachusetts.

## SILLIMAN GOES TO SALTILLO

Vice Consul Will Be President's Per-  
sonal Agent.

Washington, July 3.—Fully instructed on the Washington government's attitude toward the Mexican problem John R. Silliman will leave for Saltillo to represent the United States at the temporary capital of General Carranza, first chief of the Constitutionals.

It is understood he goes virtually as President Wilson's personal agent.

TELLS WHERE HE  
SECURED MISSILEBomb Thrower Unfolds Plot to  
Kill Austrians.

Vienna, July 3.—Nedeljo Gabrinovic, who threw a bomb at Archduke Francis Ferdinand and his wife while they were proceeding to the Sarajevo town hall last Sunday, made a complete confession, according to dispatches received from Sarajevo.

In his confession Gabrinovic says that after learning while at Belgrade that Archduke Francis Ferdinand was going to Sarajevo he communicated with Gavrio Prinzip, who fired the fatal shots, with the result that they resolved to go there also and kill the archduke, the duchess and their suites and die themselves for the fatherland.

To obtain bombs they applied to Major Milan Pribitchevitch, secretary of a Pan-Servian union and formerly an officer in the Austrian army, who had joined the Servians.

Through him, Gabrinovic says, bombs and revolvers were obtained from the Servian arsenal at Kragujevac. Prinzip, who had previously denied that he had any accomplices, broke down under examination and exclaimed: "I now regret my crime, for my comrades deserted me in a shameful manner. They should have thrown the bombs, but the cowardly scoundrels did not."

## HYDE TRIAL IS DELAYED

Missouri Supreme Court Restrains  
Jackson County.

Jefferson City, Mo., July 3.—The action of the trial court in Jackson county in denying the injunction against the Jackson county court to prevent it from appropriating money to aid in the prosecution of Dr. B. Clark Hyde, charged with the murder of Colonel Thomas H. Swope, was reversed and remanded by the supreme court.

The Jackson county court had appropriated \$15,000 for this purpose. This decision will cause a further delay in the trial of Dr. Hyde.

FRANCE MAY LEVY  
TAX ON INCOMES.

Paris, July 3.—The senate voted to include in the 1914 budget the 5 per cent tax to be collected upon incomes received in France from foreign stocks, bonds and securities of whatever form, including government bonds.

It was the refusal of the senate to include this tax in the budget which prevented the passage of the budget before the chamber dissolved for the elections.

UNDERWOOD IN  
FAVOR OF CLOTUREMay Adapt It to Limited Degree  
When He Gets to Senate.

## WOULD FACILITATE WORK.

Asserts That Power to Prevent Vote on Measure Should Not Rest on Minority—Much Discussion Given Over to Welfare and Property of the Indians.

By ARTHUR W. DUNN.

Washington, July 3.—[Special.]—When Oscar Underwood goes to the United States senate Senator Owen will have a recruit in favor of cloture of a limited kind. After eighteen years' experience in the house and observing how unlimited debate works in the senate the Alabamian believes that the senate should provide means of closing debate and forcing a vote on bills raising revenue and making appropriations.

He says that the life of the government depends upon this kind of legislation and that there should not be power in the hands of the minority to prevent a vote upon a bill raising revenue for the government or appropriating money to carry on the business of the government. More than that, he points out that the lack of cloture in the senate has often allowed a few men to place upon the appropriation bills amendments of an improper character, forcing a majority of the senate to accede to the minority and forcing the entire house of representatives to grant an unjust claim or appropriation.

## Plenty of Talk.

It has been stated that a majority of the senate is now in favor of some sort of cloture. If the matter is ever brought into the senate it will mean an everlasting amount of talk. It is doubtful whether cloture can be adopted, even with a majority in favor of it, unless perhaps some such suggestion as Underwood has made regarding revenue and appropriation bills shall only be included. This would not satisfy quite a number of men who are for cloture because they want cloture for other legislation.

## Wards of the Nation.

Taking the history of the settlement and development of America, there is no doubt that the Indians have got the worst of every deal. This is no place to go into a long recitation as to whether the rights of the Indians, who occupied America when it was first discovered, should be respected, but in dealing with them about their lands they have generally been worsted by the white man.

Even since they became the "wards of the nation" that practice seems to have been continued. Senator Robinson of Arkansas was speaking of what had happened regarding irrigation of Indian reservations and declared that "a history of the irrigation projects constructed on Indian reservations at Indian expense showed that the principal benefits have gone to the white men."

When Senator Williams tried to get an amendment in the Indian bill for the relief of the Choctaw Indians in Mississippi Senator Owen suggested that these Indians had an opportunity to go west and settle in Oklahoma and they ought to have done so.

"Why didn't they go?" asked the Oklahoma senator.

"They were urged to leave the Leaf and Pearl river bottoms and the Youghiogheny," replied Williams.

"The senator from Oklahoma surely never ate a Youghiogheny squirrel, and he never ate one of these channel cats out of the streams of that part of Mississippi."

Much more had John Sharp to say about the attractiveness of that part of Mississippi where the Choctaws chose to stay, and he did not choose to.

## "Not Today."

Congressman Hayden of Arizona was trying to get a bill through the house which meant several appointments in his state when Congressman Mondell of Wyoming remarked, "I presume that two good Democrats will be appointed to the jobs provided for in this bill."

"There is no doubt about that," cheerfully remarked Hayden.

"Not today," grimly remarked Jim Mann, and objected to consideration of the bill.

## Statesman or Politician.

Congressman Gillett and his colleague, Congressman Treadway of Massachusetts, were discussing the duties of congressmen. Congressman Treadway told about having to go home, go on an excursion here, attend a picnic there, address a meeting in one place and another meeting in some other place.

"Do you have to do that?" he asked.

"Well," remarked Gillett, "I don't do it."

"That," remarked Treadway, turning to another man, "is the difference between a statesman and a politician. A statesman does not attend to all of those little duties. A politician feels obliged to do so."

Gillett explained that his duties, particularly since he became a member of the appropriations committee, engrossed so much of his time that he could not give attention to demands of this nature.

Washington, July 3.—Secretary Daniels designated Rear Admiral Reginald F. Nicholson, recently commander of the Asiatic fleet, as a member of the general board of the navy to succeed Rear Admiral W. H. Sutherland, who is to retire July 10.

CONTRADICTS STORY  
OF DOCTOR'S WIFEWoman Says Mrs. Carman Was  
in Office Before Shooting.

Freeport, N. Y., July 3.—While Mrs. Edwin Carman was in Hempstead viewing the body of Mrs. Louise Bailey, the Long Island matron killed by a shot fired through a window in Dr. Carman's office here Tuesday night, detectives under instructions of District Attorney Smith were searching three places.

In one of these the detectives expected to find a 38-caliber revolver containing an exploded shell.

Detectives interviewed Miss Helen Coombs, a lawyer's stenographer, who said she was in the physician's house at the time of the shooting, having gone there for treatment.

"While I was there," Miss Coombs said to have told the detectives, "a woman, whom I now know was Mrs. Bailey, arrived. She did not knock or announce herself."

"While she was in the doctor's office Mrs. Carman passed through the room and went into the kitchen at the rear of the house. Later she went out on the porch. That was about ten minutes before I heard a shot."

In telling her story to the detectives and the district attorney Mrs. Carman declared she returned from New York about 7 o'clock the night of the murder and went immediately to her room on the second floor of the house where she prepared to retire.

She denied going to the ground floor, even when the shot was fired.

\$8,000 FOR A DEAD HORSE

Jury Decides Against Great Northern  
in Suit for Damages.

Helena, Mont., July 3.—Eight thousand dollars is a steep price to pay for a dead horse, but a jury in the federal court set the figure.

Mrs. Herbert L. Ennis was driving across the Great Northern railroad tracks near Culbertson, April 18, 1914. The carcass of a horse that had been killed by a train was on the right of way. It frightened the team, which ran away and threw Mrs. Ennis out. She died of the injuries sustained. Her husband and son sued for damages.

## FIVE INJURED IN WRECK

Two May Die as Result of Spreading  
Rails.

Canton, O., July 3.—Five persons were seriously injured and half a dozen others severely bruised in a wreck on the Magnolia-Sandyville branch of the Baltimore and Ohio railroad.

Two of the injured may die.

Spreading rails caused the one passenger car to jump the track, break from the engine, roll down a fifteen-foot embankment and land with the wheels up.

## Strike on Butte Depot.

Butte, Mont., July 3.—A delegation of labor men persuaded the workmen who started construction on the new depot here for the St. Paul road to strike a few hours after the work began. It is understood that the contractors were paying the laborers \$2.50 a day, while the regular scale is \$4.

Roosevelt Defends His Dealings  
With Colombia.

## DENOUNCES PENDING TREATY

Former President Replies to Statement of James T. Dubois Assailing Acts of Roosevelt Administration in Connection With the Panama Revolution—Colonel Says Paying Money to Colombia Will Be Blackmail.

Oyster Bay, N. Y., July 3.—"If the Wilson administration puts through the treaty with Colombia providing for the payment of \$25,000,000," declared Theodore Roosevelt in a statement, "it will forfeit the right to the respect of the people of the United States."

Colonel Roosevelt's statement was drawn out by that of James T. Dubois, former minister to Colombia, who assailed the acts of the Roosevelt administration in connection with the Panama revolution. The former president barely referred to the Dubois statement, however, but plunged into a denunciation of the treaty now before the senate.

"I have nothing to say about Mr. Dubois," the colonel said in his statement. "He was merely an instrument. Mr. Wilson is responsible for the payment of the blackmail to Colombia. Whether he did it on his own initiative or at the instigation of Mr. Bryan is wholly unimportant."

"Neither Mr. Wilson nor Mr. Bryan can answer my statement. The payment, if made, will be a naked payment of belated blackmail."

"There is small wonder that many hundreds of Americans in Mexico have been endeavoring to become British, German or French subjects to get some protection from some government."

**Public Spirited.**

"Why doesn't somebody build on this vacant lot? You seem to beshort on civic enterprise."

"Quite the contrary, stranger. The man who owns that lot has too much public spirit to build on it."

"How do you make that out?"

"That's where the circus shows when it comes to town."—Kansas City Journal.

**How He Won Her.**

She—Some persons claim that they cannot look from a height without wishing to cast themselves down. Did you ever have that feeling, Mr. Yearns?

He—Once. "Indeed? Where were you?"

"I was in an elevated car, and I saw you in the street."—New York Weekly.

**Those Useless Questions.**

"Billy, did you ever pick up a live trolley wire with your bare hands?"

"Many a time."

"Didn't it give you a shock?"

"Give me a shock? It killed me dead every time."—Chicago Tribune.

**Looking Forward.**

Woman (popping into mourning shop)—That's a nice little 'at in yer winder, my dear. Yer might put it by for me, will yer? 'E's not gone yet, but you never know, do yer?—London Tit-Bits.

**Blind Merciful to Blind.**

Cincinnati—Blind taking mercy on the blind was in evidence here in the municipal court when Judge Bell was called upon to judge the case of Fred Meyers, accused of professional begging. Meyers said he was blind and was trying to beg enough to get to Richmond, Ind. Judge Bell, who also is blind, arranged for the transportation of Meyers to Richmond.

**End of Mankind.**

"Now, boys," queried the teacher of the juvenile class, "can any of you tell me the final end of all mankind?"

"Yes, ma'am, I can," promptly answered the boy at the foot—"the letter 'd.'"—Exchange.

**Milk and Cream**

Try our milk for the baby, sick and puny children and old people. Discriminating judges of good milk will find we produce the best money can buy. We use sanitary milk pails, our milk room has a most complete equipment, cows are at all times clean and tested for tuberculosis, which is very important in producing clean milk. **APPEARANCES.**  
Appearances may be misleading. A gentle spirit may express itself in rude words of illiteracy; it is not therefore rude. **The Iron Duke's Birthday.**  
The Duke of Wellington himself never knew exactly when he was born. He thought it was May 1, but his biographers are not at all agreed on the point—their dates ranging from April 29 to May 6. The discrepancy probably arose from the confusion between the old and new styles of reckoning time. Queen Victoria, at any rate, was content to accept May day as the date of the "Iron duke's" birth, seeing that she gave his name, Arthur, to her soldier son, who happened to be born on this date in 1850.—London Chronicle.

## RAINS AFFECT THE BERRY CROP

Cut Down 50 Per Cent by the Unusually Heavy Rainfall of the Month of June

### DEERWOOD IS BEING ASSESSED

Deerwood Band Will Play at Carlton on the Fourth of July—Other Deerwood News

Deerwood, Minn., July 2.—F. L. Kinney, manager of the Bay Lake Fruit Growers association, reports that rains have resulted in limiting the crop of berries 50 per cent and as a result berry prices will be high. Potatoes, corn and oats at and near Deerwood have suffered from the constant rains and meadows are in some cases so drenched with water that they will be difficult to get at for hay.

Judge Maley officiated at a wedding on June 29, the principals being Frank E. Carman and Miss Besse Johnston, both of Aitkin county. The witnesses were Carl Carlson and A. H. Carlisle.

Freeman Brothers have leased the Humphrey building and will put in a stock of feed.

Frank Freeman and Miss Agnes Lee, of Crosby, were married June 24 at Akeley. The bride formerly taught school at Crosby and the bridegroom is a prominent business man of Deerwood.

Peter Brand and family have removed to their summer home at Hamlet lake.

Mr. and Mrs. Culver Adams, of Deerwood, were Brainerd visitors Thursday.

John A. Wicklander, of Isle, has bought the business of J. H. Meyers.

C. J. Rathvon, assessor of Deerwood, is calling on the people of the

village and taking inventory of all he sees.

The Deerwood band will play at Carlton on the Fourth of July. This is their first big professional engagement outside of town.

The "Moonlight" excursions given by the Deerwood band are proving to be most popular and the ride around the lake on the Ingalls Motor Boat Co. barge and the fine music prove very attractive.

Homor Mussey and H. L. Searle were a committee who visited the merchants and clerks in session at Brainerd discussing the next place for their annual picnic and created considerable sentiment for Deerwood. They promised them band and orchestra music, free row boats and picnic grounds, and a cheap rate on the launches of the Ingalls Motor Boat Co.

Arthur Olson of Duluth is a new operator at the depot.

Mr. and Mrs. A. J. Harker, Miss Maybell Harker and their guest, Earle G. Slye, of Minneapolis, are at their summer home at Island lake near Deerwood.

### Against Their Principles.

"The people in the slums about here resort entirely too much to the castigation of their offspring."

"Oh, no, they don't. They would be scared at the idea of such a thing."

"Then what do they do as family discipline?"

"They wallop their kids."—Boston Transcript.

### Don't Lose Sleep Coughing at Night

Take Foley's Honey and Tar Compound. It glides down your throat and spreads a healing, soothing coating over the inflamed tickling surface. That's immediate relief. It loosens up the tightness in your chest, stops stuffy wheezy breathing, eases distressing, racking, tearing coughs. Children love it. Refuse any substitutes. Contains no opiates. H. P. ## MANGANESE A BUSY TOWN

Streets Being Graded, Curbing and Sidewalks Being Put in and Other Improvements

### 500 LINE EXCURSION JULY 19

Soo Railway Officials Look over Road, Townsite and the New Depot Site

Manganese, Minn., July 2.—Manganese is at present one of the busiest towns on the north Cayuna range. The townsite company has a crew of men and teams working on the streets. Main street will be graded in a short time and cement walks and curbing are under construction and would have been completed now except for the rainy season.

The village has been doing a lot of street grading this summer. Two of the residence streets are nearly finished and two more streets will be graded before fall.

The Soo railway will have a crew of men and teams the latter part of this week to excavate for the new passenger and freight depot to be built here this month. W. M. Harrington, of Superior, Wis., was in town and made arrangements for the work and stated that he expected to ship his teams, men and outfit from Superior this week.

The sidetrack will be put in and the final ballasting of the new branch between Iron Hub and Manganese will be completed in about two weeks. A big excursion will be run over the Soo road from the Head of the Lakes to Manganese, July 19. This will be the first passenger train run over the Iron Hub-Manganese branch.

T. A. Dalton, who runs a general store, has returned from Superior with a shipment of drygoods.

A petition for a daily mail service for Manganese has been sent the post-office department. A twice a week service is not sufficient for a growing town like Manganese.

W. H. Stejde, D. A. Blancor and D. W. Hancock, all of Duluth, visited here this week.

T. T. Fate, of Verndale, visited here this week. A party of Soo railway officials of Duluth and Superior was in town Monday looking over the road, the depot site and the town.

Richard Bergum, the townsite agent, was in Brainerd last week looking up some legal matters for the town.

Tug of war between married men and single men—Single men winning.

Tug of war between married ladies and single ladies—Single ladies winning.

The rest of the day was spent in boating and pleasure and all went home feeling glad that they had been to the picnic.

### ESDON ETCHINGS

Albert Magnan has been feeling poorly for some time. He went in and consulted a doctor and he concluded to send him to Walker for treatment as soon as he could arrange for him to go.

Myrtle Seipps is home from business college at Little Falls, which she has been attending for the last two months.

Mrs. Seipps has been enjoying a visit from a sister and brother-in-law of Morris, Minn. They returned home last Friday.

L. E. Garrison was out last week. The telephone line is nearing completion. There will be four phones in by tomorrow night.

Will Maghan and family were out from Deerwood on a visit last Sunday. There was preaching last Sunday afternoon at Aitkin, and will be every two weeks from now on.

J. Waffensmith's housekeeper was called away on account of her mother being very sick.

We are still having rain once every 24 hours anyway.

Mrs. M. L. Hammett received a small box of cherries, from her niece, Miss Laura Nichols, who was visiting a few days with her on her way home from Hamline to Granger, Wash. The cherries were grown by Miss Nichols father at Granger, and were certainly fine.

The new bridge is being put in just east of Mr. Underwater's house. Mail failed to come some times but now the bridge men help the mail over, and the rest of us go down at the old ford or stay at home.

Mr. and Mrs. L. Beckley were out to Mrs. Beckley's father's, from Saturday until Sunday night, the 20th. They took Charlie Beck home with them for a few days visit.

Nothing helps the little ones more than a thoro laxative medicine—taken once-a-week; cleans the insides, purifies the blood, helps the appetite, makes them sleep and grow. 35c. H. P. Dunn.—Adv't.

### EAGLE LAKE WAVELETS

There was no ball game Sunday afternoon between Woodrow Eagles and Dykeman. The reason? Dykeman failed to show up.

Mr. and Mrs. Fred Hanson were Brainerd visitors Monday.

The Misses Ruth and Esther Mulholland, Ruth and Mabel Cooley, Iva Hanson and Myrtle Carlson called on Edna Edwards Sunday afternoon.

Art and Charlie Peterson were Nokay lake callers Sunday.

Mrs. J. H. Dickinson is expecting relatives from Duluth to spend the Fourth.

The N. L. Y. P. S. S. held a meeting Saturday night with a good attendance.

M. W. Wickham fell from his wagon while returning from town and seriously injured one of his arms.

John Pointon who for the past two years and a half has been in Beaufette is at home again. His many friends are glad to see his smiling face again.

Mrs. Wm. Ransdell called on Mrs. C. F. Cooley Monday afternoon.

The recent heavy rains have certainly put the roads in poor condition.

There will be a picnic at the old Heath place on Eagle lake the 4th of July. Everybody is cordially invited. In the evening the Greenaway hall will be opened for a dance. Come and enjoy a good time.

In the morning of the 4th there will be a ball game at Midland between Dykeman and Melville. In the afternoon the Woodrow Eagles will play the winning team.

Word has been received here that Miss Maybelle Stranne of Alkabo, N. D., formerly of this place and Mr. Tenny Stromstad of Alkabo, are married. The bride has a host of friends here who will all wish her great happiness in her new life.

### A Rat's Tail.

A rat's tail is a wonderful thing. The great naturalist Cuvier says that there are more muscles in this curious appendage than are to be found in that part of the human anatomy which is most admired for its ingenious structure—namely, the hand. To the rat, in fact, its tail serves as a sort of hand, by means of which the animal is enabled to crawl along narrow ledges or other difficult passages, using it to balance with or to gain a hold. It is prehensile, like the tails of some monkeys. By means of it the little beast can jump up heights otherwise inaccessible, employing it as a projectile spring.

### Greater London.

Greater London is composed of thirty-eight city boroughs and twenty-nine suburban towns.

There is more Catarrh in the section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a constitutional disease, and therefore required constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Catarrh Pills for constipation.—Adv't.

# MISS COLUMBIA On the FOURTH

She has ninety million sweethearts—  
All join in to sing her praise!  
She's the gem of land and ocean,  
And the Fourth's her day of days!

## HOW BIDDY ENJOYED THE GLORIOUS FOURTH

BIDDY was born on the "lither side," as she told everybody that was curious enough to ask her. Though foreign by birth, in feelings and actions she was thoroughly American. She had spent one Fourth of July in this country and had observed with intense interest the enthusiasm all boys and girls showed in the day. At the same time she realized that when the Fourth next came around her celebration would be lively as anybody's. And so it ended out.

Now, it might be said of Biddy that there had been a serious double mistake in her life. Instead of an Irish girl she should have been a boy and an American. But American she was bound to become, anyway, and no boy living could have entered more heartily into the celebration than this same Biddy O'Hare, in her straw hat with a wide drooping brim and her green frock.

There was just one peculiar thing in Biddy's makeup, and that, to call it by its gentlest name, was a tendency to prevaricate. Indeed, prevaricate will hardly do, for she often made up whole stories without even a foundation of truth. It was Biddy's weakness. Her parents fondly hoped that she would outgrow it—she was only eight—but, as things were now, almost all she said had to be carefully considered as coming from Biddy.

In the town where Biddy lived there was a public celebration, and this young Irish-American made her plans to attend. She did not think it worth while to ask permission. When the afternoon came she found it easy enough to get herself lost in the crowd and to follow the rest of the patriotic citizens out to the fair grounds.

This, she felt, made her fully an American. The flags waved for her as much as for anybody. And there was not a sight that escaped her. Wherever there was something extra to see Biddy would crowd in between the older persons or she would get under the ropes or the edges of a tent. When she wanted pink lemonade or peanuts she invited some man to buy them for her. She clapped when the band played. She even climbed to the band stand, where she could stand beside the man with the bass cornet.

So fascinating it all was that she did not notice when the sun went down and the torches and Japanese lanterns began to glow. She stayed right on into the evening for the fireworks. It was late when her father found her, high up in the grand stand. Of course there had been a fright when her absence was noticed, and so happy were the parents at finding her that they actually forgot to punish her for running away.

Many days passed before Biddy was through telling the wonders of her celebration. Everything she described became under her artistic touch three times as wonderful as it really had been. Biddy gave her imagination full play. The climax came when she told

of going up in a paper balloon at night. She declared there were seats all around on the inside, that it was light as day in there and that the man who sent the balloons up wanted other children to go, too, but that she was the only one who dared do it. "And that," she explained, "is why they called me the hero of the celebration. And when I came down on the very spot from which I started the band played a new piece called 'Brave Biddy O'Hare.' And"—

Just at this point her father interrupted her to say very sternly that she need continue the narrative no further. There was a look in his face that Biddy had never seen before, and her story of the Fourth stopped right where it was.—Washington Star.

### JOHN ADAMS' JULY 4 TOAST.

In the spring of the year 1826, fifty years after the signing of the Declaration of Independence, Thomas Jefferson was eighty-three and John Adams ninety, yet both retained the full enjoyment of their faculties. "Throughout the land great preparations were making to observe Independence day, the national holiday. Party feeling was sunk in common love of country, and the attention of the public was universally turned toward these venerable patriots, who, with Charles Carroll of Carrollton, were the sole survivors of the signers. Both men were in the feeblest of health and were aware that their end drew near, but both desired to behold the glorious day, and life, like a flickering taper, prolonged itself in obedience to wills that had not flinched before the wrath of kings.

On June 30 the orator for the celebration at Quincy called upon Adams and asked for a toast. "I give you," said the feeble patriarch, "Independence forever." When asked if he desired to add anything to the sentiment the old hero replied, "Not a word!"

### Division of the Circle.

Why is the circle divided into 360 degrees? When history began the Babylonians were using this division. Very early observers, without telescopes, sextants, armillary spheres or any instrument of geometric precision, thought that the earth turns on its axis 360 times while moving around the sun once. They could not possibly have discovered the modern fact that the earth turns around 365.256438 times when making one exact revolution around the sun.—New York American.

Some Facts About Water.  
It covers about two-thirds of the earth's surface to an average depth of about 12,500 feet.  
It forms 75 per cent of the human body.

When distilled to absolute purity it is almost a nonconductor of electricity.  
In freezing its volume increases by one-eleventh that of the liquid.

## ASSERTS NEED OF U. S. UNIVERSITY

Chancellor Brown Urges Agitation For Institution.

### GREAT FIELD NOW OPEN.

Many Reasons Why College Should Be Established in Washington—Its Scope and Effect Upon National Affairs. Both Government and People Would Benefit by Its Influence.

New York.—Several bills are now before congress providing for the establishment of a national university. The National Association of State Universities has for many years urged such a measure, but there has been little general discussion of the project. This seeming lack of popular interest is due, according to those most closely identified with the movement, to the fact that there has been no definite concrete statement of what a national university means nor of its scope and its effect upon national affairs.

Chancellor Elmer Ellsworth Brown of New York university, formerly commissioner of education at Washington, one of the foremost exponents of the project, said:

"I believe the time has come when there should be a general agitation

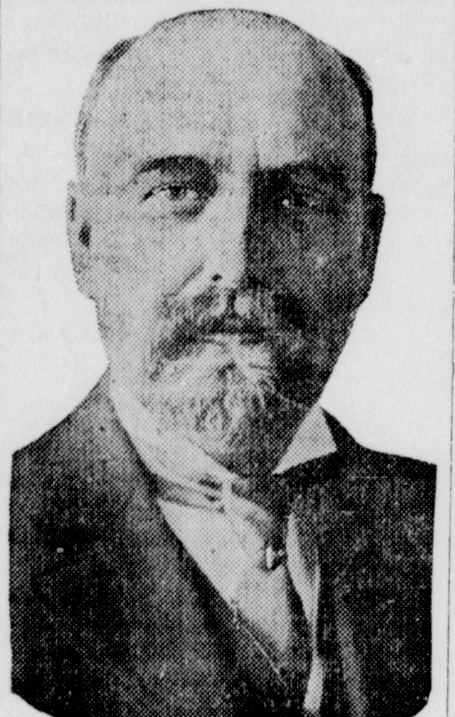

Photo by American Press Association.  
ELMER ELLSWORTH BROWN.

for the establishment of a national university—not a nebulous, inchoate, intangible federation of our state universities and not even this combined with the various scientific bureaus of our government, but an actual, physical entity. We should have lands and buildings, a board of government, a strong teaching force, classrooms and students and a fund sufficient to maintain the highest kind of research.

"The economic demand for such a university is obvious and the field for its operations no less apparent. The great growth in usefulness of our state universities and the very trend of the growth of our private universities show it. Not so many years ago our private foundations were the intellectual homes of scholars, either in embryo or fully developed. They taught the three professions—ministry, law and medicine—and acknowledged no other callings or lines of work as entitled to that name.

"Today they have developed from scholastic institutions into educational institutions and have created a number of professions. For I hold that any field in which scientific knowledge is applied to the public welfare is a profession. Instead of treating only with books they treat with facts, applying the results of scientific research to every phase of economics, finance, commerce and industry. Indeed, I do not call to mind any phase of our industrial life which they do not touch.

"The idea of a national university is not new. It was strongly advocated by Washington, who bequeathed certain shares of stock as a nucleus for its endowment. Our governmental organization is and has been for many years working toward that result. We have no isolated bureaus, nor could have as a national proposition. The reports on the observations and investigations of the different stations established by the government all over the United States are concentrated at Washington, each in the bureau which has jurisdiction over it. The result is that all the information gathered by isolated stations of any one department has a place of concentration where the whole of the findings can be compared and the net result or conclusion arrived at.

"But without co-ordinating this information with economic conditions in other fields no adequate diagnosis of a condition of error can be made and no prescription for its correction can be written. Since it is impossible, in these days of interstate commerce and even of international commerce, for any community to live a life of isolation, since the lines of one industry touch and affect so many others, it must be apparent that there is great and pressing need for a central institution.

"But not only results of the activities of government departments should find such centralization. Here also should come the findings of state and private universities, both in this country and abroad, on any and every subject affecting our national life."

### MISSION OF PAIN.

Although looked upon as an evil, pain is kind. It tells that the laws of nature have been violated and warns us to correct the cause. If it were not for pain we would go on doing things that would destroy us. Pain is a warning that something is wrong, and instead of trying to hush the pain with some drug we should seek to remove the cause.

## One-half of Nations of Earth For Peace

By WILLIAM JENNINGS BRYAN,  
Secretary of State

WE are approaching and seeing more of the IDEAL OF REASON AND LESS OF FORCE. It is a new era of peace efforts. I believe in this new era. Nations are taught to recognize brotherhood and kinship and to seek some way to adjust differences. This is true today more than at any period in the history of the world.

MORE THAN THIRTY NATIONS ARE ENTERING OR ARE ABOUT TO ENTER IN A PEACE PACT FOR ARBITRATION. FIFTEEN NATIONS HAVE SIGNED TREATIES PROVIDING FOR ARBITRATION, ELEVEN ARE READY TO SIGN AND OTHERS ARE NOW PRACTICALLY PLEDGED TO THAT METHOD OF SETTLEMENT.

One half of the nations of the earth soon will be living under conditions that will compel the submission of every question to arbitration without resort to violence.

## Scientific Co-operation Blow to Socialism

By SIMON W. STRAUS, President  
American Society of Thrift

THE PEOPLE OF THE UNITED STATES TODAY ARE THE MOST WASTEFUL IN THE WORLD, JUST AS THE AMERICAN GOVERNMENT IS THE LEAST THRIFTY. THERE IS LACK OF THRIFT ALSO AMONG THE BIG CORPORATIONS, THOUGH THEY ARE IMPROVING. THE MIDDLEMAN IS GETTING MORE THAN HE EARNS, AND UNTIL THE PRINCIPLE OF SCIENTIFIC SAVING IS BROUGHT HOME TO THE PEOPLE NO REFORM IS POSSIBLE.

During my brief English stay I have been overcome with admiration over the progress of the co-operative selling societies. Americans do not realize that these have a membership of two and a half million and that the ANNUAL TURNOVER IS ABOUT SEVEN HUNDRED MILLION DOLLARS, A LITTLE LESS THAN THE TURNOVER OF THE STEEL TRUST.

SCIENTIFIC CO-OPERATION IS THE GREATEST BLOW ADMINISTERED TO SOCIALISM. A MAN SAVING MONEY CEASES TO LISTEN TO WINDY SOCIALIST PROMISES. AN ENGLISHMAN WITH NO CAPITAL, WHO HAS JOINED A CO-OPERATIVE SOCIETY, BUYS ALL HIS SUPPLIES THERE AND AT THE END OF THE YEAR RECEIVES A SMALL DIVIDEND, ASSUMES A DIFFERENT VIEWPOINT, BECOMES AMBITIOUS AND A BETTER CITIZEN.

## Lesson of Lincoln, All Men Born Equal

By HENRY CLEWS, New York Banker,  
In Address at Flushing (N. Y.)  
High School

IN the study of Lincoln's career there is much that may be learned by young people. Above all, there is the great lesson you no doubt have already learned here in this great temple of education, and that is that in Abraham Lincoln's life you can grasp the great significance of the Declaration of Independence—all men are born equal.

THOSE WHO KNEW LINCOLN BEST SAY HE WAS UNLIKE ANY OTHER GREAT MAN THEY HAD EVER KNOWN OR READ OF, OWING TO THE MIXTURES OF FORCES AND QUALITIES IN HIM—THE IDEAL AND LOFTY WITH THE ROUGH AND COMMONPLACE.

### AIM HIGH.

In the long run men hit only what they aim at. Therefore, though they should fail immediately, they had better aim at something high.—Henry David Thoreau.

## Militants Will Win After Last Inch of Suffering

By GEORGE BERNARD SHAW,  
English Playwright

AS WE HAVE NEITHER CONVICTION ENOUGH TO DARE TO STARVE THE MILITANTS TO DEATH NOR COMMON SENSE ENOUGH TO PLEDGE OURSELVES TO THE INEVITABLE REFORM, THERE IS NOTHING TO BE DONE BUT WAIT UNTIL THE WOMEN PROVOKE A MOB TO LYNCH THEM AND THE GOVERNMENT HANGS A SATISFACTORY NUMBER OF THE MOB IN EXPIATION.

Then the women will get their votes after the LAST INCH OF MISCHIEF AND SUFFERING has been squeezed out of a situation which several civilized and reasonable countries already have disposed of without the slightest trouble. THAT IS ENGLAND ALL OVER.

### LEARN TO LAUGH.

Learn to laugh. A good laugh is better than medicine. Learn to tell a story. A well told story is as welcome as a sunbeam in a sick-room. Learn to keep your own troubles to yourself. The world is too busy to care for your ills and sorrows. Learn to do something for others. Even if you are a bed-ridden invalid there is always something that you can do to make others happier, and that is the surest way to attain happiness for yourself.

### Liberty and the Colossus.

There is very little difference in height between Bartholdi's statue of Liberty on Bedloe's island and that given of the famous "Colossus of Rhodes." Liberty measures 152 feet from the base to the top of the torch, while the Rhodian statue was in height 157 feet. Thus it will be seen that the Colossus overtopped Liberty by only five feet. But this is the larger estimate for the ancient figure. According to some statements the Colossus was only ninety feet high.—New York American.

### A Chronic Grumbler.

Charles Lamb tells of a chronic grumbler who always complained at himself because he had so few trumps. By some artifice his companions managed to fix the cards so that when he dealt he got the whole thirteen, hoping to extort some expression of satisfaction, but he only looked more wretched than ever as he examined his hand. "Well, Tom," said Lamb, "haven't you trumps enough this time?" "Yes," grunted Tom, "but I've no other cards."

### WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away

BRAINERD women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause. Here's proof of their merit in a W. Brainerd woman's words:

Mrs. R. Abear, W. Main St., W. Brainerd, Minn., says: "One of our family was so bad with kidney complaint last winter that she had to miss two weeks from school. Her back ached and she was so sore and lame that she wasn't able to get around. We gave her Doan's Kidney Pills, and she got so much better that she was able to go back to school. Four years ago I suffered from hard, dull pains in my back, together with rheumatic twinges. I used Doan's Kidney Pills, that I got at H. P. Dunn's Drug Store and they relieved all the ailments."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Abear had. Foster-Milburn Co., Props., Buffalo, N. Y.

In the town where Biddy lived there was a public celebration, and this young Irish-American made her plans to attend. She did not think it worth while to ask permission. When the afternoon came she found it easy enough to get herself lost in the crowd and to follow the rest of the patriotic citizens out to the fair grounds.

This, she felt, made her fully an American. The flags waved for her as much as for anybody. And there was not a sight that escaped her. Wherever there was something extra to see Biddy would crowd in between the older persons or she would get under the ropes or the edges of a tent. When she wanted pink lemonade or peanuts she invited some man to buy them for her. She clapped when the band played. She even climbed to the band stand, where she could stand beside the man with the bass cornet.

So fascinating it all was that she did not notice when the sun went down and the torches and Japanese lanterns began to glow. She stayed right on into the evening for the fireworks. It was late when her father found her, high up in the grand stand. Of course there had been a fright when her absence was noticed, and so happy were the parents at finding her that they actually forgot to punish her for running away.

Many days passed before Biddy was through telling the wonders of her celebration. Everything she described became under her artistic touch three times as wonderful as it really had been. Biddy gave her imagination full play. The climax came when she told

of going up in a paper balloon at night. She declared there were seats all around on the inside, that it was light as day in there and that the man who sent the balloons up wanted other children to go, too, but that she was the only one who dared do it. "And that," she explained, "is why they called me the hero of the celebration. And when I came down on the very spot from which I started the band played a new piece called 'Brave Biddy O'Hare.' And—"

Just at this point her father interrupted her to say very sternly that she need continue the narrative no further. There was a look in his face that Biddy had never seen before, and her story of the Fourth stopped right where it was.—Washington Star.

### JOHN ADAMS' JULY 4 TOAST.

In the spring of the year 1826, fifty years after the signing of the Declaration of Independence, Thomas Jefferson was eighty-three and John Adams ninety, yet both retained the full enjoyment of their faculties. Throughout the land great preparations were making to observe Independence day, the national holiday. Party feeling was sunk in common love of country, and the attention of the public was universally turned toward these venerable patriots, who, with Charles Carroll of Carrollton, were the sole survivors of the signers. Both men were in the feeblest of health and were aware that their end drew near, but both desired to behold the glorious day, and life, like a flickering taper, prolonged itself in obedience to wills that had not flinched before the wrath of kings.

On June 30 the orator for the celebration at Quincy called upon Adams and asked for a toast. "I give you," said the feeble patriarch, "Independence forever." When asked if he desired to add anything to the sentiment the old hero replied, "Not a word!"

### Division of the Circle.

Why is the circle divided into 360 degrees? When history began the Babylonians were using this division. Very early observers, without telescopes, sextants, armillary spheres or any instrument of geometric precision, thought that the earth turns on its axis 360 times while moving around the sun once. They could not possibly have discovered the modern fact that the earth turns around 365.256438 times when making one exact revolution around the sun.—New York American.

### Some Facts About Water.

It covers about two-thirds of the earth's surface to an average depth of about 12,500 feet. It forms 75 per cent of the human body. When distilled to absolute purity it is almost a nonconductor of electricity. In freezing its volume increases by one-eleventh that of the liquid.

## ASSERTS NEED OF U. S. UNIVERSITY

Chancellor Brown Urges Agitation For Institution.

### GREAT FIELD NOW OPEN.

Many Reasons Why College Should Be Established in Washington—Its Scope and Effect Upon National Affairs. Both Government and People Would Benefit by Its Influence.

New York.—Several bills are now before congress providing for the establishment of a national university. The National Association of State Universities has for many years urged such a measure, but there has been little general discussion of the project. This seeming lack of popular interest is due, according to those most closely identified with the movement, to the fact that there has been no definite concrete statement of what a national university means nor of its scope and its effect upon national affairs.

Chancellor Elmer Ellsworth Brown of New York university, formerly commissioner of education at Washington, one of the foremost exponents of the project, said:

"I believe the time has come when there should be a general agitation

ELMER ELLSWORTH BROWN.

for the establishment of a national university—not a nebulous, inchoate, intangible federation of our state universities and not even this combined with the various scientific bureaus of our government, but an actual, physical entity. We should have lands and buildings, a board of government, a strong teaching force, classrooms and students and a fund sufficient to maintain the highest kind of research.

"The economic demand for such a university is obvious and the field for its operations no less apparent. The great growth in usefulness of our state universities and the very trend of the growth of our private universities show it. Not so many years ago our private foundations were the intellectual homes of scholars, either in embryo or fully developed. They taught the three professions—ministry, law and medicine—and acknowledged no other callings or lines of work as entitled to that name.

"Today they have developed from scholastic institutions into educational institutions and have created a number of professions. For I hold that any field in which scientific knowledge is applied to the public welfare is a profession. Instead of treating only with books they treat with facts, applying the results of scientific research to every phase of economics, finance, commerce and industry. Indeed, I do not call to mind any phase of our industrial life which they do not touch.

"The idea of a national university is not new. It was strongly advocated by Washington, who bequeathed certain shares of stock as a nucleus for its endowment. Our governmental organization is and has been for many years working toward that result. We have no isolated bureaus, nor could have as a national proposition. The reports on the observations and investigations of the different stations established by the government all over the United States are concentrated at Washington, each in the bureau which has jurisdiction over it. The result is that all the information gathered by isolated stations of any one department has a place of concentration where the whole of the findings can be compared and the net result or conclusion arrived at.

"But without co-ordinating this information with economic conditions in other fields no adequate diagnosis of a condition of error can be made and no prescription for its correction can be written. Since it is impossible, in these days of interstate commerce and even of international commerce, for any community to live a life of isolation, since the lines of one industry touch and affect so many others, it must be apparent that there is great and pressing need for a central institution.

"But not only results of the activities of government departments should find such centralization. Here also should come the findings of state and private universities, both in this country and abroad, on any and every subject affecting our national life."

### MISSION OF PAIN.

Although looked upon as an evil, pain is kind. It tells that the laws of nature have been violated and warns us to correct the cause. If it were not for pain we would go on doing things that would destroy us. Pain is a warning that something is wrong, and instead of trying to hush the pain with some drug we should seek to remove the cause.

## One-half of Nations of Earth For Peace

By WILLIAM JENNINGS BRYAN,  
Secretary of State

**W**E are approaching and seeing more of the IDEAL OF REASON AND LESS OF FORCE. It is a new era of peace efforts. I believe in this new era.

Nations are taught to recognize brotherhood and kinship and to seek some way to adjust differences. This is true to-day more than at any period in the history of the world.

MORE THAN THIRTY NATIONS ARE ENTERING OR ARE ABOUT TO ENTER IN A PEACE PACT FOR ARBITRATION. FIFTEEN NATIONS HAVE SIGNED TREATIES PROVIDING FOR ARBITRATION, ELEVEN ARE READY TO SIGN AND OTHERS ARE NOW PRACTICALLY PLEDGED TO THAT METHOD OF SETTLEMENT.

One half of the nations of the earth soon will be living under conditions that will compel the submission of every question to arbitration without resort to violence.

## Scientific Co-operation Blow to Socialism

By SIMON W. STRAUS, President  
American Society of Thrift

**T**HE PEOPLE OF THE UNITED STATES TODAY ARE THE MOST WASTEFUL IN THE WORLD, JUST AS THE AMERICAN GOVERNMENT IS THE LEAST THRIFTY. THERE IS LACK OF THRIFT ALSO AMONG THE BIG CORPORATIONS, THOUGH THEY ARE IMPROVING. THE MIDDLE-CLASS MAN IS GETTING MORE THAN HE EARNES, AND UNTIL THE PRINCIPLE OF SCIENTIFIC SAVING IS BROUGHT HOME TO THE PEOPLE NO REFORM IS POSSIBLE.

During my brief English stay I have been overcome with admiration over the progress of the co-operative selling societies. Americans do not realize that these have a membership of two and a half million and that the ANNUAL TURNOVER IS ABOUT SEVEN HUNDRED MILLION DOLLARS, A LITTLE LESS THAN THE TURNOVER OF THE STEEL TRUST.

SCIENTIFIC CO-OPERATION IS THE GREATEST BLOW ADMINISTERED TO SOCIALISM. A MAN SAVING MONEY CEASES TO LISTEN TO WINDY SOCIALIST PROMISES. AN ENGLISHMAN WITH NO CAPITAL, WHO HAS JOINED A CO-OPERATIVE SOCIETY, BUYS ALL HIS SUPPLIES THERE AND AT THE END OF THE YEAR RECEIVES A SMALL DIVIDEND, ASSUMES A DIFFERENT VIEWPOINT, BECOMES AMBITIOUS AND A BETTER CITIZEN.

## Lesson of Lincoln, All Men Born Equal

By HENRY CLEWS, New York Banker,

**I**N the study of Lincoln's career there is much that may be learned by young people. Above all, there is the great lesson you no doubt have already learned here in this great temple of education, and that is that in Abraham Lincoln's life you can grasp the great significance of the Declaration of Independence—all men are born equal.

THOSE WHO KNEW LINCOLN BEST SAY HE WAS UNLIKE ANY OTHER GREAT MAN THEY HAD EVER KNOWN OR READ OF, OWING TO THE MIXTURES OF FORCES AND QUALITIES IN HIM—THE IDEAL AND LOFTY WITH THE ROUGH AND COMMONPLACE.

## Militants Will Win After Last Inch of Suffering

By GEORGE BERNARD SHAW,  
English Playwright

**A**S WE HAVE NEITHER CONVICTION ENOUGH TO DARE TO STARVE THE MILITANTS TO DEATH NOR COMMON SENSE ENOUGH TO PLEDGE OURSELVES TO THE INEVITABLE REFORM, THERE IS NOTHING TO BE DONE BUT WAIT UNTIL THE WOMEN PROVOKE A MOB TO LYNCH THEM AND THE GOVERNMENT HANGS A SATISFACTORY NUMBER OF THE MOB IN EXPIATION.

Then the women will get their votes after the LAST INCH OF MISCHIEF AND SUFFERING has been squeezed out of a situation which several civilized and reasonable countries already have disposed of without the slightest trouble. THAT IS ENGLAND ALL OVER.

### LEARN TO LAUGH.

Learn to laugh. A good laugh is better than medicine. Learn to tell a story. A well told story is as welcome as a sunbeam in a sick-room. Learn to keep your own troubles to yourself. The world is too busy to care for your ills and sorrows. Learn to do something for others. Even if you are a bed-ridden invalid there is always something that you can do to make others happier, and that is the surest way to attain happiness for yourself.

### Liberty and the Colossus.

There is very little difference in height between Bartholdi's statue of Liberty on Bedloe's island and that given of the famous "Colossus of Rhodes." Liberty measures 152 feet from the base to the top of the torch, while the Rhodian statue was in height 157 feet. Thus it will be seen that the Colossus overtopped Liberty by only five feet. But this is the larger estimate for the ancient figure. According to some statements the Colossus was only ninety feet high.—New York American.

### A Chronic Grumbler.

Charles Lamb tells of a chronic grumbler who always complained at what he called his few trumps. By some artifice his companions managed to fix the cards so that when he dealt he got the whole thirteen, hoping to extort some expression of satisfaction, but he only looked more wretched than ever as he examined his hand. "Well, Tom," said Lamb, "haven't you trumps enough this time?" "Yes," grunted Tom, "but I've no other cards."

### WHEN HER BACK ACHES

## A Woman Finds All Her Energy and Ambition Slipping Away

Brainerd women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause. Here's proof of their merit in a W. Brainerd woman's words:

Mrs. R. Abear, W. Main St., W. Brainerd, Minn., says: "One of our family was so bad with kidney complaint last winter that she had to miss two weeks from school. Her back ached and she was so sore and lame that she wasn't able to get around. We gave her Doan's Kidney Pills, and she got so much better that she was able to go back to school. Four years ago I suffered from hard, dull pains in my back, together with rheumatic twinges. I used Doan's Kidney Pills, that I got at H. P. Dunn's Drug Store and they relieved all the ailments."

## SUSPECTS JAILED IN MINNEAPOLIS

"Con" Allen Left for Minneapolis  
1:30 A. M. Tuesday Shortly  
after Hour of Robbery

### IN BRAINERD MONDAY NIGHT

A "John Doe" Arrest of a Man Cash-  
ing Gedney Pickling Co.  
Check for \$50

Developments in the city clerk robbery continue active in Minneapolis and the Minneapolis Tribune prints the story of the arrest of "Con" Allen and the arrest of a "John Doe" man who tells that "The Dummy" gave him \$8 in silver to spend. The article states:

"Con" Allen was arrested in a private detective agency office in the McKnight building, on advice from Brainerd that he was wanted in connection with the hold-up of Virgil N. Roderick, city clerk there, last Monday night. The robbers got \$1,388.40.

Brainerd officials will come for Allen today. They say that he was released from jail there Saturday and left for Minneapolis at 1:30 a. m. Tuesday, two hours and a half after the robbery.

Allen is said to have admitted he was in Brainerd Monday night, and did come to Minneapolis on the early morning train. He denies that he knows anything of the robbery. He said that he borrowed \$2.50 from the sheriff at Brainerd to come here.

When arrested Allen had 50 cents, said to have been borrowed here. Arrested last night on a forgery charge, a man who gave no other name than John Doe, told the police that two of the three men who Tuesday robbed Roderick were in Minneapolis.

Doe said he met a man on the street whom he knew as "The Dummy". They exchanged greetings and "The Dummy" gave him \$8 in silver, saying he was well fixed.

"Three of us nicked the Brainerd clerk," he said, "and we're going to meet in Spokane July 25. We got a little twisted in our getaway and two of us are here now."

The Minneapolis Daily News prints a story under the heading "Brainerd Robbers in City, Police Believe." It states:

That two of the three robbers who held up City Clerk Virgil N. Roderick of Brainerd, Minn., and robbed him of \$1,388 Monday night, are in Minneapolis, is the belief of the police today following the arrest last night of a man who gave his name as "John Doe," when taken into custody.

The prisoner was arrested by Detectives Wear and Ohman after he had cashed a \$50 check of the Gedney Pickling Co., made payable to John Ess. The letter, containing the check, was mailed at Hennepin and Washington aves. by an employee of the pickling concern at 6 p. m. last night, and how it came into possession of the mysterious suspect the police have not learned.

According to information given the police, the man under arrest and the three robbers who pulled the job at Brainerd recently committed a post-office robbery in southern Minnesota.

In another column the Minneapolis Daily News has a story headed "Bandits are Still Free" and says:

Though the authorities of Brainerd, Minn., are certain that the three men who early yesterday held up and robbed City Clerk Virgil N. Roderick of \$1,388, are in Minneapolis, not a trace of them has been found here by detectives and deputy sheriffs.

At Brainerd, it was said that the robbers used an automobile to make their escape after the hold-up and several persons declare they saw a high-powered machine on the road to Minneapolis shortly after the robbery. All depots were closely watched yesterday without result. Detectives also guarded all roads leading into the city.

The police here think it possible

### FOURTH OF JULY

Last Notes Concerning the Big Celebration Tomorrow—About the Parade

Brainerd celebrates the Fourth of July according to program Saturday. The parade forms at the bridge fill at 9:30 and marches through town and to Gregory park where the speaking takes place.

Everybody, especially the owners of autos, motorcycles, bicycles, etc., visiting and home people, are asked to join in the parade. The time was too limited for the parade committee to extend a personal invitation to everyone.

The day fireworks at 1:30 at the depot square. Sports in the afternoon at Koering field. 4 P. M. the baseball game between Staples and Brainerd. Then the fireworks at Koering field in the evening and the Brainerd city band plays while the rockets glare illuminates the skies. A grand ball at Gardner auditorium in the evening.

### ARM SHOT OFF

An Austrian Miner, Felix Kavolek, Lights Stick of Dynamite and Explosion Results

Felix Kavolek, aged 29, an Austrian miner, is at a local hospital recovering from injuries. He picked up a stick of dynamite near Barrows and touched off a match to it as many of the old miners do. Kavolek had been mining nine years and had often done the trick.

He shifted the stick from his left to his right hand and just as the blaze was under headway, this particular stick bucked and exploded with terrific force, blew Kavolek 20 feet, tore of his right hand and part of his arm and particles of the explosive penetrated his right eyeball, injuring the sight.

He retained his presence of mind, and remembering his instructions in first aid to the injured, had his companion take his shoe lace and tie the arm tightly above the injury. Then he walked three miles to his boarding house, Dr. R. A. Beise was summoned and the man taken to a local hospital.

### DEATH OF G. A. GROVES

Bradford, Penn., Man was Father of Dr. Albert F. Groves of Brainerd

The death of George A. Groves, one of Bradford's best known and most highly respected residents, occurred at his home, No. 147 Kennedy street, this morning at 2:30 o'clock. Mr. Groves had been confined to his bed since Nov. 18, 1913, owing to a fractured hip which he suffered as the result of a fall. Owing to his advanced age he could not overcome the injury. The late Mrs. Groves died on Tuesday morning, January 6, 1914.

George A. Groves was a man possessing a splendid Christian character. His life has been a living example which many could follow. He was honorable in all his business dealings, and a friend to all who had the privilege of knowing him. Mr. Groves had been an active member of the First Presbyterian church ever since he took up his residence here in 1877. For many years he officiated as elder of that body.

Fred W. Groves, of Detroit, Mich., a son, arrived in Bradford on the B. & P. train early this morning and was with his father when death claimed him.

The body of Mr. Groves will be taken to Rockville, Conn., for burial in the family plot. Dr. Charles A. Groves of East Orange, N. J., will be unable to come to Bradford to attend the funeral, but will join the party at Springfield, Mass., on its way to Connecticut.

George A. Groves was born in Southbridge, Mass., August 11, 1825, and came of Revolutionary stock, his grandfather, whom he remembered well, having served through that war. In 1877, Mr. Groves came from Rockville, Conn., to Bradford, and in 1879 he built a home at the corner of Kennedy street and Jackson avenue, where he lived until his death. For many years, alone and later in partnership with his sons, Fred W. Groves and George F. Groves, he conducted a large retail shoe business on Main street and also engaged in the oil business. The encroachment of old age forced his retirement from active affairs a few years ago. Mr. Groves is survived by four sons: George F. Groves, of this city; Fred W. Groves, of Detroit, Mich.; Dr. Albert F. Groves, of Brainerd, Minn., and Dr. Charles A. Groves, of East Orange, N. J.—Bradford Evening Star and Bradford Daily Record.

At Bremen, Ga., W. M. Golden, of the Equitable Life Assurance Society, says he found Foley Kidney Pills to be the best remedy for kidney and bladder troubles, also for rheumatism. He says, "Any person having kidney trouble, backache, or rheumatism should be very glad to find such a wonderful remedy." H. P. Dunn.—Adv.

Much Married.  
The following, taken from "Evelyn's Diary," refers to a Dutchwoman who lived in the seventeenth century: "Toward the end of August I returned to Haarlem. They showed us a cottage where, they told us, dwelt a woman who had been married to her twenty-fifth husband and, being now a widow, was prohibited to marry in the future, yet it could not be proved that she had ever made away with any of her husbands, though the suspicion had brought her divers times into trouble."

## WATER AND LIGHT BOARD

At its Meeting Services of Supt. F. W. Reed are Dispensed with on July 15th

At the last meeting of the water and light board the services of Supt. F. W. Reed were dispensed with on July 15th.

Mr. Reed, city electrician and water works man, was requested to resign by the board and refused to do so. Motion made by Commissioners Dunn and Rowley that the services of F. W. Reed be dispensed with July 15 carried. A motion carried that hereafter the secretary must hire all help and issue all orders, Commissioner Weidemann objecting thereto.

All were present at the meeting of the board. Some bills and some of the payrolls were allowed. An application from Con O'Brien for new water service on North Second street was received. A motion carried that all services on newly laid main on North Second street between Ivy and Juniper be allowed proper credit.

The Chinese laundry was given a water rate of \$3 a quarter. Service on Gillis avenue is to be connected up with a four inch main. Water service at 402-404 Quince street was brought up and it was found the house had bath rooms since being remodeled. On motion of Commissioners Rowley and Weidemann the secretary is to bill on C. B. Rowley owner of the property, and he will collect from tenants. The secretary is to ascertain when bath tubs were installed.

Commissioner Weidemann said he would attend to the service line on 509 Holly street in a few days. The secretary was instructed to ask for bids on coal, Millers Creek screenings, bids to be opened July 29.

A water rate on the Model Laundry was up for discussion. The secretary is to look up the meter readings and bill for the water used on the basis of readings.

### BRAINERD MOVIES

Park Theatre Provides a Rare Treat for People of Brainerd—Movies Applauded

The Park theatre was filled last night with an appreciative audience which viewed with pleasure the pictures of Brainerd. It was the first time the city has ever been snapped with a movie camera. Manager E. A. Adams, of the Park theatre, distinguished himself in his direction of the camera operations and had photographed to advantage every section of the business district.

The series is headed "Brainerd, the Busy City of the Cuyuna Range." There are views of South Sixth street, the Iron Exchange building, shoppers on Front street, Murphy's "Store of Quality", the First National bank, Tom Mansuras' restaurant on Front street, Laurel street views, etc. The crowd, as a rule, was snapped all unconscious of the fact that a moving picture was being taken.

The Little Falls Elks picture drew applause and a generous measure of applause was accorded the Elks parade of automobiles and especially when F. S. Parker's car came into view.

The pictures will be shown tonight and the Fourth in addition to a well selected program. Do not miss them. The Park theatre offers a prize to the one identifying the most people.

### Much Married.

The following, taken from "Evelyn's Diary," refers to a Dutchwoman who lived in the seventeenth century: "Toward the end of August I returned to Haarlem. They showed us a cottage where, they told us, dwelt a woman who had been married to her twenty-fifth husband and, being now a widow, was prohibited to marry in the future, yet it could not be proved that she had ever made away with any of her husbands, though the suspicion had brought her divers times into trouble."

### "THE WORLD AT HOME"

Street Carnival in Brainerd July 13-18 a Miniature World's Fair

Can you imagine a miniature World's Fair brought to your very doors, well that is what "The World at Home" will do when it arrives in Brainerd for its stay of one week, commencing July 13 and ending July 18th. It requires 35 double length solid steel railway cars to transport this mammoth aggregation. Almost every known amusement device in existence is carried by "The World at Home," some of them have never been presented by a traveling organization.

In addition to the amusement features in the way of riding devices, etc., there are many shows of the highest order, included among them are "The Garden of Allah" (Arabian village); "California Frank's Wild West and Indian Congress"; "Mazeppa" the horse with a human brain; Omar Sami's, the Human Butterfly and the Marvels of the Universe; Willard's Wonders of Melodia; Armstrong's Congress of Oddities; the Diving Horses; Professor Victor Eslick's Champion Concert Band and sensational exhibitions in the mid-air and on the elevated platforms.

"The Garden of Allah" is a wonderful exhibition, over seventy men, women and children of the desert appear in it. There are camels, elephants, burros, donkeys, dogs and goats. "Mazeppa" is the most remarkable equine in the world, and does everything but talk. "Willard's Wonders of Melodia" is the greatest musical novelty in the world. "California Frank's Wild West and Indian Congress" embraces all that is interesting appertaining to the Far West in the early days. "Omar Sami's East Indian Exhibitions" are unique and "Armstrong's Congress of Oddities" will make you laugh as you never laughed before. The riding devices will afford plenty of amusement for the patrons who seek thrilling sensations. The band concerts are a musical treat. The World at Home is conducted along high class lines, perfectly equipped.

The Little Falls Elks picture drew applause and a generous measure of applause was accorded the Elks parade of automobiles and especially when F. S. Parker's car came into view.

The pictures will be shown tonight and the Fourth in addition to a well selected program. Do not miss them. The Park theatre offers a prize to the one identifying the most people.

The Old Time Dandy.  
From an English newspaper printed in the year 1777 is the following description of a dandy: "A few days ago a macaroni made his appearance in the assembly rooms at Whitehaven dressed in a mixed silk coat, pink satin waistcoat and breeches covered with an elegant silk net, white silk stockings with pink clocks, pink satin shoes and large pearl buttons, a mushroom colored stock covered with fine point lace, hair dressed remarkably high and stuck full of pearl pins."

## SUSPECTS JAILED IN MINNEAPOLIS

"Con" Allen Left for Minneapolis  
1:30 A. M. Tuesday Shortly  
after Hour of Robbery

### IN BRAINERD MONDAY NIGHT

A "John Doe" Arrest of a Man Cash-  
ing Gedgey Pickling Co.  
Check for \$50

Developments in the city clerk robbery continue active in Minneapolis and the Minneapolis Tribune prints the story of the arrest of "Con" Allen and the arrest of a "John Doe" man who tells that "The Dummy" gave him \$8 in silver to spend. The article states:

"Con" Allen was arrested in a private detective agency office in the McKnight building, on advice from Brainerd that he was wanted in connection with the hold-up of Virgil N. Roderick, city clerk there, last Monday night. The robbers got \$1,388.40.

Brainerd officials will come for Allen today. They say that he was released from jail there Saturday and left for Minneapolis at 1:30 a. m. Tuesday, two hours and a half after the robbery.

Allen is said to have admitted he was in Brainerd Monday night, and did come to Minneapolis on the early morning train. He denies that he knows anything of the robbery. He said that he borrowed \$2.50 from the sheriff at Brainerd to come here.

When arrested Allen had 50 cents, said to have been borrowed here.

Arrested last night on a forgery charge, a man who gave no other name than John Doe, told the police that two of the three men who Tuesday robbed Roderick were in Minneapolis.

Doe said he met a man on the street whom he knew as "The Dummy". They exchanged greetings and "The Dummy" gave him \$8 in silver, saying he was well fixed.

"Three of us nicked the Brainerd clerk," he said, "and we're going to meet in Spokane July 25. We got a little twisted in our getaway and two of us are here now."

The Minneapolis Daily News prints a story under the heading "Brainerd Robbers in City, Police Believe." It states:

That two of the three robbers who held up City Clerk Virgil N. Roderick of Brainerd, Minn., and robbed him of \$1,388 Monday night, are in Minneapolis, is the belief of the police today following the arrest last night of a man who gave his name as "John Doe," when taken into custody.

The prisoner was arrested by Detectives Wear and Ohman after he had cashed a \$50 check of the Gedgey Pickling Co., made payable to John Ess. The letter, containing the check, was mailed at Hennepin and Washington aves. by an employee of the pickling concern at 6 p. m. last night, and how it came into possession of the mysterious suspect the police have not learned.

According to information given the police, the man under arrest and the three robbers who pulled the job at Brainerd recently committee a post-office robbery in southern Minnesota.

In another column the Minneapolis Daily News has a story headed "Bandits are Still Free" and says:

Though the authorities of Brainerd, Minn., are certain that the three men who early yesterday held up and robbed City Clerk Virgil N. Roderick of \$1,388, are in Minneapolis, not a trace of them has been found here by detectives and deputy sheriffs.

At Brainerd, it was said that the robbers used an automobile to make their escape after the hold-up and several persons declare they saw a high-powered machine on the road to Minneapolis shortly after the robbery. All depots were closely watched yesterday without result. Detectives also guarded all roads leading into the city.

The police here think it possible

## CAVEIN ON HOLLY STREET

A laborer in the waterworks trench near Holly and North Fifth was caught in a cavein and injured. He was entirely covered by the falling dirt.

That the three men parted company outside Minneapolis, and entered the city by different roads.

### FOURTH OF JULY

Last Notes Concerning the Big Celebration Tomorrow—About the Parade

Brainerd celebrates the Fourth of July according to program Saturday. The parade forms at the bridge hill at 9:30 and marches through town and to Gregory park where the speaking takes place.

Everybody, especially the owners of autos, motorcycles, bicycles, etc., visiting and home people, are asked to join in the parade. The time was too limited for the parade committee to extend a personal invitation to everyone.

The day fireworks at 1:30 at the depot square. Sports in the afternoon at Koering field. 4 P. M. the baseball game between Staples and Ephraim. Then the fireworks at Koering field in the evening and the Brainerd city band plays while the rockets glare illuminates the skies. A grand ball at Gardner auditorium in the evening.

### ARM SHOT OFF

An Austrian Miner, Felix Kavolek, Lights Stick of Dynamite and Explosion Results

Felix Kavolek, aged 29, an Austrian miner, is at a local hospital recovering from injuries. He picked up a stick of dynamite near Barrows and touched off a match to it as many of the old miners do. Kavolek had been mining nine years and had often done the trick.

He shifted the stick from his left to his right hand and just as the blaze was under headway, this particular stick bucked and exploded with terrific force, blew Kavolek 20 feet, tore of his right hand and part of his arm and particles of the explosive penetrated his right eyeball, injuring the sight.

He retained his presence of mind, and remembering his instructions in first aid to the injured, had his companion take his shoe lace and tie the arm tightly above the injury. Then he walked three miles to his boarding house, Dr. R. A. Belse was summoned and the man taken to a local hospital.

### DEATH OF G. A. GROVES

Bradford, Penn., Man was Father of Dr. Albert F. Groves of Brainerd

The death of George A. Groves, one of Bradford's best known and most highly respected residents, occurred at his home, No. 147 Kennedy street, this morning at 2:30 o'clock. Mr. Groves had been confined to his bed since Nov. 18, 1913, owing to a fractured hip which he suffered as the result of a fall. Owing to his advanced age he could not overcome the injury. The late Mrs. Groves died on Tuesday morning, January 6, 1914.

George A. Groves was a man possessing a splendid Christian character. His life has been a living example which many could follow. He was honorable in all his business dealings, and a friend to all who had the privilege of knowing him. Mr. Groves had been an active member of the First Presbyterian church ever since he took up his residence here in 1877. For many years he officiated as elder of that body.

Fred W. Groves, of Detroit, Mich., a son, arrived in Bradford on the B. & P. train early this morning and was with his father when death claimed him.

The body of Mr. Groves will be taken to Rockville, Conn., for burial in the family plot. Dr. Charles A. Groves of East Orange, N. J., will be unable to come to Bradford to attend the funeral, but will join the party at Springfield, Mass., on its way to Connecticut.

George A. Groves was born in Southbridge, Mass., August 11, 1825, and came of Revolutionary stock, his grandfather, whom he remembered well, having served through that war. In 1877, Mr. Groves came from Rockville, Conn., to Bradford, and in 1879 he built a home at the corner of Kennedy street and Jackson avenue, where he lived until his death. For many years, alone and later in partnership with his sons, Fred W. Groves and George F. Groves, he conducted a large retail shoe business on Main street and also engaged in the oil business. The encroachment of old age forced his retirement from active affairs a few years ago. Mr. Groves is survived by four sons: George F. Groves, of this city; Fred W. Groves, of Detroit, Mich.; Dr. Albert F. Groves, of Brainerd, Minn., and Dr. Charles A. Groves, of East Orange, N. J.—Bradford Evening Star and Bradford Daily Record.

At Bremen, Ga., W. M. Golden, of the Equitable Life Assurance Society, says he found Foley Kidney Pills to be the best remedy for kidney and bladder troubles, also for rheumatism. He says, "Any person having kidney trouble, backache, or rheumatism should be very glad to find such a wonderful remedy." H. P. Dunn.—Adv.

### WATER AND LIGHT BOARD

At its Meeting Services of Supt. F. W. Reed are Dispensed with on July 15th

At the last meeting of the water and light board the services of Supt. F. W. Reed were dispensed with on July 15th.

Mr. Reed, city electrician and water works man, was requested to resign by the board and refused to do so. Motion made by Commissioners Dunn and Rowley that the services of F. W. Reed be dispensed with July 15 carried. A motion carried that hereafter the secretary must hire all help and issue all orders, Commissioner Weidemann objecting thereto.

All were present at the meeting of the board. Some bills and some of the payrolls were allowed. An application from Con O'Brien for new water service on North Second street was received. A motion carried that all services on newly laid main on North Second street between Ivy and Juniper be allowed proper credit.

The Chinese laundry was given a water rate of \$3 a quarter. Service on Gillis avenue is to be connected up with a four inch main. Water service at 402-404 Quince street was brought up and it was found the house had bath rooms since being remodeled. On motion of Commissioners Rowley and Weidemann the secretary is to bill on C. B. Rowley owner of the property, and he will collect from tenants. The secretary is to ascertain when bath tubs were installed.

Commissioner Weidemann said he would attend to the service line on 509 Holly street in a few days. The secretary was instructed to ask for bids on coal, Millers Creek screenings, bids to be opened July 29.

A water rate on the Model Laundry was up for discussion. The secretary is to look up the meter readings and bill for the water used on the basis of readings.

### BRAINERD MOVIES

Park Theatre Provides a Rare Treat for People of Brainerd—Movies Applauded

The Park theatre was filled last night with an appreciative audience which viewed with pleasure the pictures of Brainerd. It was the first time the city has ever been snapped with a movie camera. Manager E. A. Adams, of the Park theatre, distinguished himself in his direction of the camera operations and had photographed to advantage every section of the business district.

The series is headed "Brainerd, the Busy City of the Cuyuna Range." There are views of South Sixth street, the Iron Exchange building, shoppers on Front street, Murphy's "Store of Quality", the First National bank, Tom Mansuras' restaurant on Front street, Laurel street views, etc. The crowd, as a rule, was snapped all unconscious of the fact that a moving picture was being taken.

The Little Falls Elks picture drew applause and a generous measure of applause was accorded the Elks parade of automobiles and especially when F. S. Parker's car came into view.

The pictures will be shown tonight and the Fourth in addition to a well selected program. Do not miss them. The Park theatre offers a prize to the one identifying the most people.

## TO THE CITIZENS OF BRAINERD and CROW WING COUNTY

**A**FTER a thorough and full investigation into the standing, reliability and integrity of the officers of The Minneapolis, Mille Lacs & Northern Railway Company, by a committee appointed by the Chamber of Commerce, negotiations were entered into by the committee and representatives of the railway. It was found impossible to definitely arrive at the probable amount that would be subscribed toward the construction of the line from Anoka to Brainerd. In the estimation of the committee it was deemed best for representatives of the railway company to submit to the Chamber of Commerce, at a regular session, a plan for procedure toward procuring sufficient subscriptions to its capital stock to begin active construction of the road, such plan to be under the approbation of the committee, subject to the approval of the Chamber of Commerce.

¶ Accordingly the following plan was submitted to the Chamber of Commerce on Wednesday evening, July 1st, and was unanimously approved by that body.

To the Chamber of Commerce, Brainerd, Minn.

Gentlemen:

At my suggestion, this body, prior to its regular incorporation, selected a committee of citizens of Brainerd to examine the financial and legal standing of the parties back of the Minneapolis, Mille Lacs & Northern railway company, which committee, after appointment, duly made such investigation and examination, and thereafter filed with the secretary pro tem of this organization its report in writing, supplemented by a report of one member of the committee as to the legal status of the two railroad companies now organized.

In both reports so made and filed and adopted by the Chamber of Commerce, it appears that the financial standing and credibility of Mr. L. H. Bolduc, president and treasurer of this company was thoroughly gone into and in both reports favorable comment was made upon his integrity. At the same time favorable report was made upon the standing and credibility of other men connected with the promotion of this company and the parent company.

This committee's report and recommendation to the Chamber of Commerce while not binding in any respect on any one, will, as I understand it, eventually have some bearing upon the procedure to be taken with reference to this railroad coming into Brainerd.

It also appears from the reports made by the committee that the necessity of the construction of such a railroad is material to the future development of the city of Brainerd and the surrounding county, and it must be apparent to everyone that there is no other proposed railroad of any kind that could be made that would open up as vast a territory and be of as great benefit to the city of Brainerd as such a line as we propose.

In view of all that has been said and done and in view of all that is said in this communication, I ask that the Chamber of Commerce at this time make a recommendation to the probable investors in this corporation to the extent that the feasibility of the railroad and the integrity of the people back of it are such that the same can be recommended, and that further, the question as to their investment in such railroad be left to the judgment of each and every one who may seek to subscribe to its capital stock; and that this Chamber of Commerce recommend to investors and purchasers of its capital stock that they examine the reports made by this committee and all other facts easily ascertained, and that they then use their own judgment individually as to whether or not they shall make such investment.

It would seem to me that such a course by this body would relieve not only the committee but the individual members as to the financial standing of the company, or the parties back of it and let each one make his own investment on his own judgment.

Respectfully submitted,  
C. E. HANSING,  
Fiscal Agent.

July 1st, 1914.

¶ A canvass of the business men and citizens of Brainerd and Crow Wing County is now being made to the end that all who will subscribe may be listed and such subscriptions negotiated. No subscription will be too small and it is hoped that every citizen of the county and city appreciates the importance of such a line of railway coming into this section and making Brainerd its Northern terminus.

¶ Construction will begin as quickly as possible and as early in the Fall as is consistent. Twenty-five (25%) per cent of all subscriptions will be payable within ninety days after date of subscription and balance within one year. ## TO THE CITIZENS OF BRAINERD and CROW WING COUNTY

**A**FTER a thorough and full investigation into the standing, reliability and integrity of the officers of The Minneapolis, Mille Lacs & Northern Railway Company, by a committee appointed by the Chamber of Commerce, negotiations were entered into by the committee and representatives of the railway. It was found impossible to definitely arrive at the probable amount that would be subscribed toward the construction of the line from Anoka to Brainerd. In the estimation of the committee it was deemed best for representatives of the railway company to submit to the Chamber of Commerce, at a regular session, a plan for procedure toward procuring sufficient subscriptions to its capital stock to begin active construction of the road, such plan to be under the approbation of the committee, subject to the approval of the Chamber of Commerce.

¶ Accordingly the following plan was submitted to the Chamber of Commerce on Wednesday evening, July 1st, and was unanimously approved by that body.

To the Chamber of Commerce, Brainerd, Minn.

Gentlemen:

At my suggestion, this body, prior to its regular incorporation, selected a committee of citizens of Brainerd to examine the financial and legal standing of the parties back of the Minneapolis, Mille Lacs & Northern railway company, which committee, after appointment, duly made such investigation and examination, and thereafter filed with the secretary pro tem of this organization its report in writing, supplemented by a report of one member of the committee as to the legal status of the two railroad companies now organized.

In both reports so made and filed and adopted by the Chamber of Commerce, it appears that the financial standing and credibility of Mr. L. H. Bolduc, president and treasurer of this company was thoroughly gone into and in both reports favorable comment was made upon his integrity. At the same time favorable report was made upon the standing and credibility of other men connected with the promotion of this company and the parent company.

This committee's report and recommendation to the Chamber of Commerce while not binding in any respect on any one, will, as I understand it, eventually have some bearing upon the procedure to be taken with reference to this railroad coming into Brainerd.

It also appears from the reports made by the committee that the necessity of the construction of such a railroad is material to the future development of the city of Brainerd and the surrounding county, and it must be apparent to everyone that there is no other proposed railroad of any kind that could be made that would open up as vast a territory and be of as great benefit to the city of Brainerd as such a line as we propose.

In view of all that has been said and done and in view of all that is said in this communication, I ask that the Chamber of Commerce at this time make a recommendation to the probable investors in this corporation to the extent that the feasibility of the railroad and the integrity of the people back of it are such that the same can be recommended, and that further, the question as to their investment in such railroad be left to the judgment of each and every one who may seek to subscribe to its capital stock; and that this Chamber of Commerce recommend to investors and purchasers of its capital stock that they examine the reports made by this committee and all other facts easily ascertained, and that they then use their own judgment individually as to whether or not they shall make such investment.

It would seem to me that such a course by this body would relieve not only the committee but the individual members as to the financial standing of the company, or the parties back of it and let each one make his own investment on his own judgment.

Respectfully submitted,  
C. E. HANSING,  
Fiscal Agent.

¶ A canvass of the business men and citizens of Brainerd and Crow Wing County is now being made to the end that all who will subscribe may be listed and such subscriptions negotiated. No subscription will be too small and it is hoped that every citizen of the county and city appreciates the importance of such a line of railway coming into this section and making Brainerd its Northern terminus.

¶ Construction will begin as quickly as possible and as early in the Fall as is consistent. Twenty-five (25%) per cent of all subscriptions will be payable within ninety days after date of subscription and balance within one year.
